

To whom it may concern

06 January 2024

The EU General Data Protection Regulation ("GDPR") comes into force across the European Union on the 25<sup>th</sup> of May 2018 and brings with it the most significant changes to data protection law in decades. Based on privacy design and taking a risk-based approach, the GDPR has been designed to meet the requirements of the digital age.

These new Regulations aims to standardise data protection laws and the protection laws and processing across the EU, affording individuals a better control of their personal information.

NMT Crane and Plant Hire LTD are committed to ensuring the security and protection of the personal information that we process and to provide a compliant and consistent approach to data protection. We already have data protection in place which complies with the existing law, and this abides by the data protection principles.

Data storage of our customers is securely held within our systems and our staff are trained in GDPR compliance. We will also never pass on or sell this information.

If you would like your data regarding your company removed from our systems, please email:

[Accounts@nmtcranes.co.uk](mailto:Accounts@nmtcranes.co.uk) or writing to the above address.

Best regards

NMT Crane and Plant Hire Ltd
